

## ICSZ Compensating Stacker

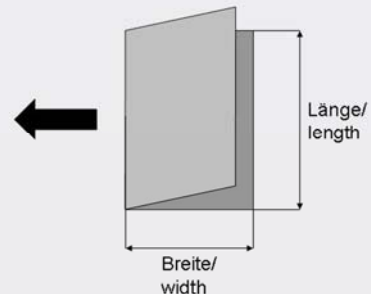

The stacker interlocks products crosswise to produce a solid bundle for optimal palletizing.

### Technical Specifications

#### Measurements

<b>Total height</b>	approx. 2228 mm
<b>Total width</b>	approx. 1377 mm
<b>Total length</b>	approx. 3478 mm (without swivel arm), depending on inlet height
<b>Input height</b>	600 - 900 mm
<b>Output height</b>	850 - 900 mm
<b>Height partial batch</b>	max. 160 mm
<b>Height complete bundle</b>	max. 300 mm
<b>Product width</b>	148 - 320 mm
<b>Product length</b>	190 - 480 mm
<b>Product diagonal</b>	max. 580 mm, attention please

#### Pneumatic system

<b>Air pressure</b>	min. 6 bar
<b>Air consumption</b>	max. 1,0 Nm <sup>3</sup> /min., unooled, dry air

#### Electrical supply data

<b>Voltage</b>	400 V, 3 Phase, N, PE, 50 Hz
<b>Power input</b>	1,5 kW
<b>Fuse</b>	20 A slow-blow fuse
<b>Cycle time</b>	1.8 sec.

#### Example for production speed at DIN A4 (48 pages):

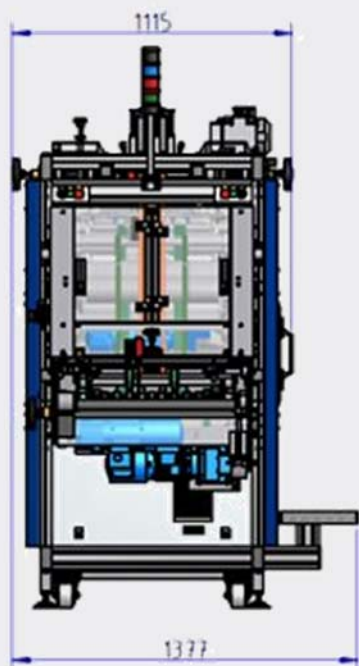

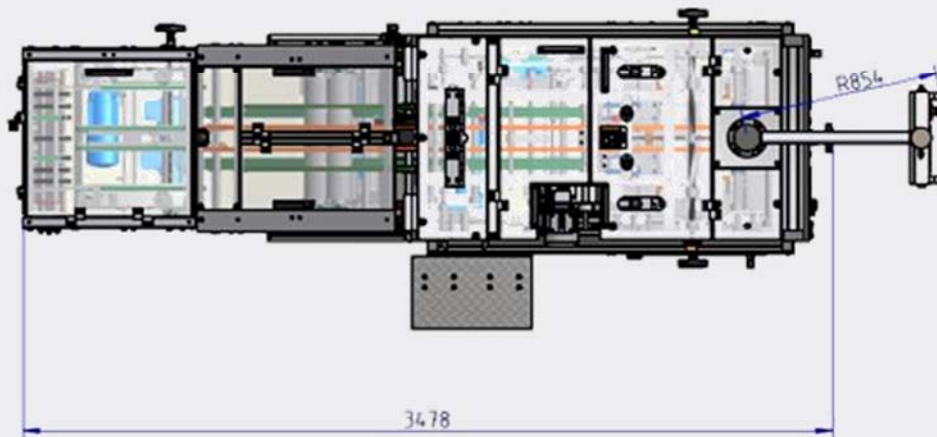

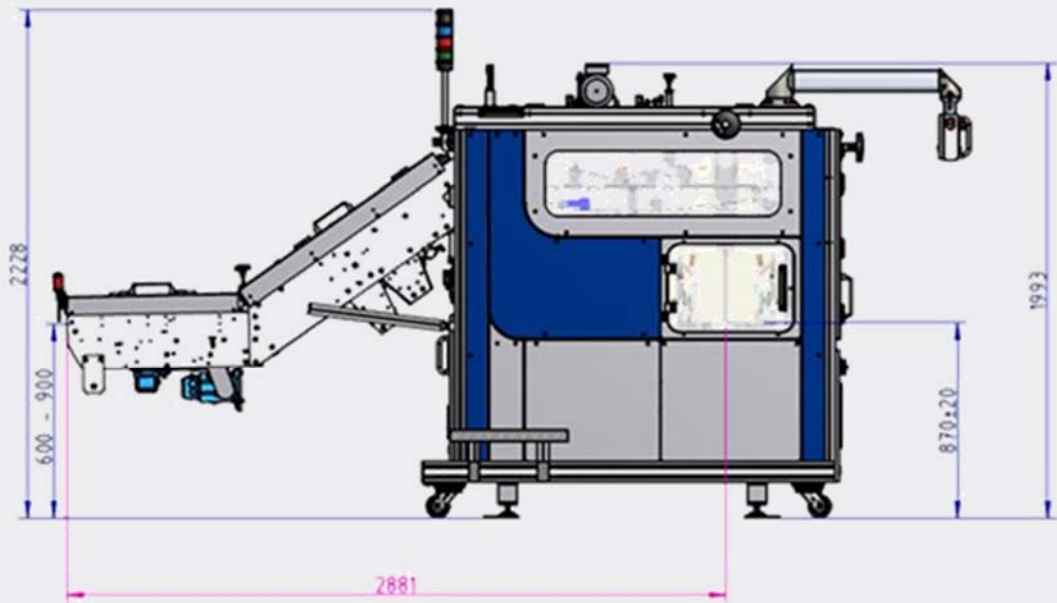

Shingle stream infeed between 30 and 60 mm

Guaranteed performance: 100.000 c/h. at 50 copies per partial bundle

Performance data refers to DIN A4 products without inserts.
